1905 Standard Methods For Examination of Water and Wastewater® has represented "the best current practice of American water analysts." Analysts, researchers, and regulatory officials have relied on this comprehensive reference tool as a trusted source of accurate, proven ...

Item Detail - Standard Methods for the Examination of ...

With seawater the yellow color intensity is decreased by 20 to 35% and the blue color intensity is increased by 10 to 15%. When waters of high ionic strength are analyzed by these methods, use silica standards of approximately the same ionic strengths. 2. Method 4500-SiO₂.E or F may be used where large numbers of samples are analyzed regularly. Method 3111D is recommended for broad-range use.
