Walking Beam Stirling Engine

Walking Beam Stirling Engine: I recently decided to build a walking beam engine. I was going to make it out of wood and tin cans, I wasn't sure how it would all fit together so I made a cardboard mock up. The cardboard mock up was pretty strong, so I thought, why not just try an...

The walking beam engine similar
to yours was one of the most
powerful Stirlings I built. I had a
Lathe at the time making the
construction a piece of cake. A
highly pressurized (2000psi)
Stirling using helium as a fluid,
made from a non-heat transfer
material called Unobtainium
powered by reflected sunlight
sounds great....but like the
original Stirlings....They must be
