The Kodály method, also referred to as the Kodály concept, is an approach to music education developed in Hungary during the mid-twentieth century by Zoltán Kodály. His philosophy of education served as inspiration for the method, which was then developed over a number of years by his associates. In 2016, the method was inscribed as a UNESCO Intangible Cultural Heritage.

Since its introduction into the Australian context the influence of the Kodály concept has been significant in the areas of early childhood, primary and secondary education. Research and training have underpinned endeavours in the ACT, NSW, Queensland, Victoria, South Australia and Western Australia and have encouraged many teachers to strive for a better musical future for their students.

The Kodály Concept II Kodály Australia

The Kodaly Method is a way of developing musical skills and teaching musical concepts beginning in very young children. This method uses folk songs, Curwen hand signs, pictures, movable-do, rhythm symbols, and syllables. It was first introduced in Hungary but is now used in many countries, either alone or in combination with other methods.

Chapter 4: Approaches to Music Education I Music and the Child

Kodaly said that the children's own folk music is familiar to the children, and therefore should be the starting point of the children's music education. Should not the children's own popular music be incorporated for the same reason? Choksy might be speaking more from her own musical tastes than from her training and experience.

Takadimi is a system devised by Richard Hoffman, William Pelto, and John W. White in 1996 in order to teach rhythm skills. Takadimi, while utilizing rhythmic symbols borrowed from classical South Indian carnatic music, differentiates itself from this method by focusing the syllables on meter and on western tonal rhythm.Takadimi is based on the use of specific syllables at certain places within ...
