Switch it on and people are loving and generous. Switch it off and they revert to violence and greed. Pioneering neuroeconomist Paul J. Zak has discovered just such a master switch, a molecule in the human brain. The Moral Molecule is a firsthand account of this discovery, revealing how evolution built the Golden Rule into our biology. From his laboratory in California to the jungles of Papua New Guinea, Zak takes you on an amazing and exciting journey to what it means to be human.

The Moral Molecule: The Source of Love and Prosperity: Zak ...

What his work shows is that when we are given someone else's trust—when someone does something to show us that they trust us—we get a hit of oxytocin. And this sense of feeling good from the feel-good-molecule causes us to trust in return. All you need to do to trigger the release of this moral molecule is give someone a sign of trust.

Zak - The Moral Molecule - AFWW

Human beings can be so compassionate - and yet they can also be shockingly cruel. What if there was a hidden master control for human behavior? Switch it on and people are loving and generous. Switch it off and they revert to violence and greed. Pioneering neuroeconomist Paul J. Zak has discovered j...

The Moral Molecule: The Source of Love and Prosperity ...

According to Venezuelan Minister of Sciences and Technologies Gabriela Jimenez, the molecule DR10 was isolated from a medicinal plant that eliminates the COVID-19 virus with 100 percent efficacy without affecting healthy cells. This molecule can be used to produce medicines that will help to combat the coronavirus infection.
