This discovery confirms Freud in his hypothesis that the uncanny is the unwelcome return of something that was once familiar, but is now foreign and alienating. In the following section, Freud proceeds to examine individual examples of the uncanny and try to discover the common link.

~~The Uncanny Summary | GradeSaver~~

what is " uncanny " is frightening precisely because it is not known and familiar. Naturally not everything which is new and unfamiliar is frightening, however; the relation cannot be inverted. We can only say that what is novel can easily become frightening and uncanny; some new things are frightening but not by any means all. Something has to be
