Thematic Cartography and Geographic Visualization by Terry ...

Arthur H. Robinson (January 5, 1915 – October 10, 2004) was an American geographer and cartographer, who was professor in the Geography Department at the University of Wisconsin–Madison from 1947 until he retired in 1980. He was a prolific writer and influential philosopher on cartography, and one of his most notable accomplishments is the Robinson projection of 1961.

Arthur H. Robinson - Wikipedia

Cartography (/ ˈ k ɑː r ɒ t ɒ r ə f i /; from Greek χάρτης, "papyrus, sheet of paper, map"; and γραφειν, "write") is the study and practice of making maps. Combining science, aesthetics, and technique, cartography builds on the premise that reality (or an imagined reality) can be modeled in ways that communicate spatial information effectively.
