~~...~~

"This is the Way the World Ends" is one of those ambiguous, "Is it sci-fi or something else?" kind of books. The book is essentially a philosophical and theological contemplation on responsibility: the responsibility of the citizen to stop an insane State; and the responsibility the current generation bears to both the all-but infinite hordes of the dead, and the actually-infinite yet-to-be-born.

"This is the Way the World Ends" is the book I've been searching for all these years. Like World War Z, it's based in a very real and immediate world, told from around a decade in the future in the form of interviews with survivors of the zombie war, and like World War Z, it feels like something that could really happen.

(The line "This is the way the world ends" appears three times in a row.) As is the case for most of Eliot 's work, there are plenty of different interpretations. Usually, though, this poem is thought to be a commentary on war and on the passing of mankind from the earthly realm to the beyond—the below beyond, in particular.

bang...

A way that takes us to a certain place. In a less literal sense, it can also be understood as the means that leads us to a destination. That is, camino is the direction we must take, what we must do. The way to go, definitely, and that is often a journey full of obstacles and unexpected situations.
