This module addresses HVAC criteria related to all commercial building types, including Group R Buildings : R-1 uses (any height); R-2 and R-3, when over 3 stories. HVAC criteria related to low-rise residential buildings are covered under the NYC DOB Residential Training Module. This module is a

NYCECC HVAC 2 OVERVIEW: 2016 NYC Energy Conservation Code

5. Customer Problem: Will a larger blower motor help my air conditioning?My air conditioner does not seem to be blowing very hard.. Answer: I would check your refrigerant charge first because if your system is low on charge it will cause the coil to freeze up and cause a restriction in the air flow.Rule of thumb is the blower should produce 440 CFM (cubic feet per minute) of air per ton.
