I don't remember where I found the 5704 installation manual, but I downloaded it once I found it because I figured it wouldn't be up for very long. So if you find one for the 5706, download it. Installing one of these really isn't that difficult, it's just tedious and time consuming.

Had the Viper Security and Remote Start System 5706V installed on my 2010 Chevrolet Cobalt and it works great, also had Cruise Control installed at the dealer and loving it so far. I love everything that this alarm has, remote start, keyless entry, 2 way remote, one mile range. Thanks Viper, I could not ask for anything better. Money well invested.
