are common in both oceanic and continental settings, whereas granitic rocks are rarely found in the oceans Plate tectonics and igneous activity

Volcanoes and Other Igneous Activities

Chapter 6

Intraplate volcanism is igneous activity that

Acces PDF Volcanoes And Other Igneous Activity

occurs within a tectonic plate away from plate boundaries. Most intraplate volcanism occurs where a mass of hotter than normal mantle material called a mantle plume rises toward the surface. The activity forms localized volcanic regions called hot spots.
