Waterfall is the only former signature move to later become an HM move. In Pokémon Platinum, there is a waterfall in Distortion World that can be climbed without having the move Waterfall or the Beacon Badge. This is likely due to the fact that gravity is not normal in this world; the player appears to be "surfing" on the waterfall's surface.

The waterfall model is a breakdown of project activities into linear sequential phases, where each phase depends on the deliverables of the previous one and corresponds to a specialization of tasks. The approach is typical for certain areas of engineering design. In software development, it tends to be among the less iterative and flexible approaches, as progress flows in largely one direction ...
