ESM2 with AFR2 Control Upgrade The next generation of engine control for Waukesha* engines offers new functionality, benefits, and a simplified user experience.

ESM2 with AFR2 Control Upgrade - INNIO

The latest wire harness design for Waukesha's VHP* Series ESM* 12 cylinder engines provides a more robust design for reliable operation in harsh oilfield conditions. The new design reduces the risk of harness failure and utilizes a modular design that can be repaired or replaced in sections.

ESM Harness Upgrade - innio.com

This course provides a thorough treatment of the Engine System Manager (ESM*), Waukesha's total engine control system. Here, the first version of ESM is addressed from each component all the way through troubleshooting the system. The first ESM version has been replaced by ESM2 and AFR2 on all Series 5 engines.
