This ERIC digest presents a summary of discussions from urban educators who addressed the issue of school violence at a National Education Association meeting held May 19, 1994. These educators note that American society is steeped in violence, particularly in urban areas, where children experience frustration, helplessness, and anger, and where they more often express that anger in violent ways.

CO 2 lasers are increasingly being utilized for quality welding in production. Considering the high equipment cost and high productivity, the start-up time and set-up time for new products should be minimized. Today most parameters involved in laser welding still have to be manually fine-adjusted when initiating welding of a new product.

~~NEWS SUMMARY — The New York Times~~

A pilot 3D-laser machining system for combined laser beam cutting and welding of complex tube geometries with small diameters ($\phi < 20$ mm) was developed. It consists of a pulsed Nd:YAG-laser, rated 500 W, two fiber beam deliveries each equipped with a special working head, a tool changing system, an articulated robot, a turn table and the ...
